Vernell Sievers notified the Council via email that she received verbal approval of the water/sewer plan for the Prairie East subdivision from the ND Dept of Health (official notice to follow by mail). Bac-T testing, line flushing, and the final engineering certification must be completed before the water supply may be turned on.

The City was asked whether a commercial enterprise may be allowed in a residential area – specifically, a cabinet making business. Since the City has no formal zoning for commercial entities, the Council determined that this would be permissible with the expectation that the business would endeavor to be a ‘good neighbor’ with regard to noise, traffic, etc.
